DEAL OR NO DEAL™ - THE SHOW e-MOTION

Welcome to the next chapter in Atronic's most successful series of slots, Deal or No Deal™ - The Show! Players can play the Lucky Case Bonus for a chance at double their suitcase winnings, making it both interesting and volatile.

Super Play allows the player to decide how the game will play and pay. The

game can be played Line Mode or Super Play mode. If the player wagers twenty-five lines, the game plays in Super Play mode where all wins are paid scattered from left to right.

The Bonus Round is entertaining and interactive. The game show screen appears showing twenty suitcases, each containing a different credit amount. The player picks one suitcase, then five of the remaining suitcases, which will open to reveal the credit amounts inside. The bank will make an offer and the player may decide Deal (take the offer), or No Deal (keep playing). If No Deal, he continues to play through the round until either an offer is accepted from the bank or the player's suitcase is opened.
