## VILLAGE PEOPLE PARTY

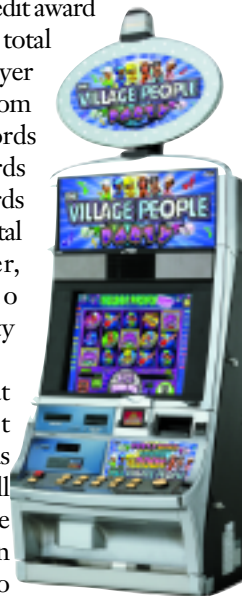

WMS has combined the popularity of Jackpot Party with the fun guys from Village People for a sure-fire groove! All the classic elements from Jackpot Party are here, but with a brand new twist that's sure to please players.

Scattered Bonus symbols on reels 1, 3 and 5 start the Party Bonus, which features classic Village People hits like "YMCA," "In the Navy," "Macho Man," and more! First, the player selects 1 of the 6 Village People to win a credit award

of 1-5 times their total bet. Next, the player begins to pick from the array of records on screen. Records reveal credit awards of 1-5 times the total bet, a multiplier, 'Pick a Macho Man,' or a party pooper.

Any record that reveals a credit award pays 1-5 plus the total value of all selected Village People. When 'Pick a Macho Man' is revealed, the player gets to select a second band member, which adds both macho man values to all future picks. The next credit pick is multiplied if a 2x, 3x, or 5x multiplier is revealed. If 'Pick a Macho Man' is revealed, then that vocalist's value is multiplied and is applied (in its multiplied state) to every future pick!

The record picking continues until a Party Pooper is revealed, ending the bonus. Picking all 6 Village People in the bonus awards an additional 200x the bonus player's total bet!
