

# Delivering on the promise.

Today's casino floor is data-driven and dynamic. You need flexibility. Investments that pay off, today and tomorrow. You must deliver an entertaining player experience – again and again.

*sbX™*, *IGT Advantage®* and *IGT DynamiX™* converge to help you achieve new levels of dynamic casino and player management.

Realize savings and focus your investments with the integration of *sbX™*, *IGT Advantage®* and *IGT DynamiX™*.

Save on conversion costs and unnecessary player tracking hardware. Access the world's largest G2S game library. Dynamically communicate with players through the Service Window. All on GSA open protocols.

We're delivering on the promise, and it's just the beginning. Join the list of industry innovators.
