At G2E 2006, AC Coin will showcase three exciting new games: Double Spin™ Slotto®, It's Raining Cash™ Slotto®, and The Big Game Show Bonus™.

Double Spin Slotto will be available in two different editions (both of which are great for low denom slots). The first is a 3-reel, 5-line multi-coin using IGT's proven Triple Stars payable. The second is a 5-reel, 9-line multi-coin using IGT's Double Diamond payable. The game also boasts an easy-to-play flashing game board and an eye-catching Slotto ball tumbler. With its proven paytables, improved Advanced Slotto® bonus game and multi-denom capability, Double Spin Slotto will put a brand new spin on slot fun at casinos across the country!

It's Raining Cash Slotto will also be available in a 3-reel, 5-line multi-coin game using IGT's proven Triple Stars payable and a 5-reel, 9-line multi-coin game using IGT's Double Diamond payable. The game also includes new low-maintenance Advanced Slotto technology that has been engineered to maximize playtime and minimize downtime. It's Raining Cash Slotto features a fun, toe-tapping hit song, proven paytables and an all-new Slotto bonus game sure to please slot managers and players alike.

The Big Game Show Bonus heralds the return of the Slotto ball globe, legendary for delivering entertainment to players and high WPU to casinos. This fun bonusing game also features an easy-to-understand flashing game board and

*"We're excited about all of the features these games offer. Each one of them has a unique bonus event. The packages themselves are really complete and the overall synchronization of events and lights makes them really exciting."*

low-maintenance Advanced Slotto technology. The Big Game Show Bonus™ uses IGT's popular Double Diamond 5-reel, 9-line multi-coin payable. The Big Game Show Bonus board will have players lining up to join in as lights blink and music plays and that's before the Slotto bonus round starts. The combination of game show fun, with a crowd-gathering Slotto top box and an upgraded IGT base game is sure to make The Big Game Show Bonus a hit.

Each of these games also feature synchronized soft-white LEDs behind the spinning reels and enhanced sound systems to increase player excitement and faster credit roll-up to decrease player wait time between plays.

Bally Technologies, Inc. plans to showcase a broad array of gaming products and technology at the upcoming Global Gaming Expo (G2E). As the Company moves toward its 75th Anniversary year in 2007, the Bally display, featuring the "On Fire!" theme, will also be ablaze with more than 100 unique game titles.

The expansive exhibit space will feature the unveiling of Bally's lineup of distinctive new cabinet styles offering gaming operators an unprecedented level of flexibility. The Alpha Elite™ series features a common base cabinet designed to make it easy for operators to switch back and forth between a reel-spinner and a video slot. This remarkable variety of cabinet configurations will include the

dramatic Alpha Elite V32 video cabinet with a striking 32-inch vertical touch-screen; the versatile Alpha Elite V20/20 with twin 20-inch stacked LCD touch-screens; the Alpha Elite S9C, featuring a 6.3-inch touch-screen below the reels; and the all new Alpha Elite S9E stepper slot with 20-inch LCD mounted in the top box. In addition, Bally will once again feature its highly popular CineVision™ 26-inch wide-screen, surround-sound cabinet.

Each of these various cabinet styles will house a wide assortment of exciting new game titles running on Bally's much-heralded Alpha OST™ video gaming operating system. Proven to be a hit with both operators and players alike, these games offer improved graphics, superior sound, multi-denom and multi-percentage.

Bally will also showcase a sparkling group of unique game concepts, including many new proprietary game titles, such as Fireball Frenzy™, New York Gold™, Black Velvet™, and Mystic Lamp™.

Bally will also have an expanded systems presence this year, showcasing technology from four distinct product lines - Bally Casino Management Systems (CMS®), Bally Slot Management Systems (SMS®), Bally Table Management Systems (TMS™) and the new Bally Power Bonus™. Bally will display and demonstrate an array of advanced products for the global casino industry, including technology from the SDS®, ACSC™, and MCC™. Additionally, Bally TMS will display a newly released Power Winners integrated version of its

*"Bally is a great company with an incredible history of innovation and success. I'm excited about our outstanding portfolio of new products and systems technologies that will be showcased at this year's G2E show. At G2E 2006, Cadillac Jack will unveil its exciting portfolio of new products and technologies including multi-denomination games, a new Wide Area Progressive system named Cadillac Cash, and the company's new Vision Yield Management system. Cadillac Jack will also feature a variety of new video and mechanical reel game themes for the Class

II and Class III/compact markets, as well as new international games for the Mexican and Latin American marketplaces.

Cadillac Cash, the company's new Wide Area Progressive, will be showcased at G2E. Multiple game themes, including popular titles Dr. StrangeLuck, Rock Paper Scissors, and Lusty Devil, will be linked throughout multiple sites to offer players a high earning jackpot that is paid instantly.

*"We are excited to introduce our new technology and products to our customers at this year's G2E. The company's new Wide Area Progressive, Cadillac Cash, and the Vision Yield Management system, along with enhancements to our gaming platform, will continue to drive our customers to new levels of profitability."*

*Greg Gronau  
 President, Cadillac Jack*

Cadillac Jack's new Vision Yield Management system allows casino operators to maximize their profit based upon actual business analytics. This new web-based, predictive analysis tool, designed to work seamlessly with Cadillac Jack's server-based systems, analyzes slot machine performance over a period of time to help determine the most efficient and profitable point at which to make theme changes, thus maximizing profitability on the slot floor.

The company will showcase its newest video and mechanical reel games for the Class III/compact gaming markets. Based upon Cadillac Jack's server-based game technology, the company's games are able to quickly and easily transform from a Class II game to Class III/compact game format right on the casino floor.

Multi-denom games will also be presented on Cadillac Jack's most popular game themes, allowing the player to select the denomination upon which to place their wagers. In addition, Cadillac Jack will feature its new series of Latin-style Bingo games and Spanish language electronic video bingo games for the Mexican and Latin American markets.

The centerpiece of IGT's booth at G2E 2006 will be its "sb™ casino," showcasing unique server-based gaming player and tournament applications and download demonstrations. IGT's Advanced Video Platform (AVP®) machine will serve as the portal for all the server-based gaming possibilities that will be on display.

IGT will feature M-P Series™ multi-player concepts for roulette and baccarat; the AVP® widescreen product; a new slant-top AVP machine with digital top glass and a dual LCD; slant-top 3-reel and 5-reel multi-line games; new video slot themes including Wolf Run™, Abracadabra™, Ocean Pearl™ and Super Happy Fortune Cat™; and proven 3-, 4- and 5-reel slot themes.

The MegaJackpots® product line will be represented by the new Wheel of Fortune® and Indiana Jones™ AVP widescreen Multi Level Progressives, The Price is Right® Cliff Hangers™ multi-player product, the new Red Hot Jackpots™ Multi Level Progressive, and Star Wars™ The Empire Strikes Back™ and Star Wars™ Rebel Assault™ video slots.

New video poker themes will include Guaranteed Play Poker (a unique approach to packaging poker which allows the player to purchase a block of hands for a fixed price), Wild Thing Poker™, Opponent Poker™, Big Times Pay™ and Super Triple Play™. New Barcrest USA game titles will be Triple Top Dollar™, Blue Blazes™, Reel Hot Poker™, Anything But Six™ and Red Hottie™.

*"We'll unveil the new M-P (Multi-Player) Series, an abundance of new 5-reel, 20-line slot themes, and the new AVP widescreen machine. G2E 2006 will be a turning point for the casino industry, and IGT will be in the forefront."*

*Steve Morro  
 Steve Morro, President of IGT's Gaming Division*

IGT will display the new Table iD™ product - which incorporates technology of Progressive Gaming International Corporation and Shuffle Master, Inc. - for blackjack and mini-baccarat, including table promotions applications; the IGT Advantage™ System suite of products; Advantage Bonusing

capabilities and the NexGen™ multimedia player tracking panel which will showcase IGT's new Bonus Delivery Games; the Visual Slot Performance™ and Mobile Data Access™ tools; and the IGT Advantage Club Kiosk which allows players to access their own Advantage Patron Management data to easily convert points and promo awards balances to comps and vouchers. There will be demonstrations of the Guaranteed Play feature and its interface with EZ Pay® purchase tickets, and a special area will be devoted to the extensive WagerWorks game library which includes Monopoly Here and Now, Wheel of Fortune® Triple Action Frenzy™, Double Bonus Spin Roulette - Player's Suite™, The \$50,000 Pyramid™ and Cleopatra®.

titles, VGT brings new gaming excitement to a proven, profitable platform. New title highlights include: Crazy Billions and Greenback Jack, 3-reel, central determinant mechanical game products that feature VGT's patent pending "add a reel" feature; Ruby's Night Out and Jewel's Dream, two new 3-reel mechanical, 3-line products for Class II and other bingo markets; and exciting new products for the Mexican bingo market and charitable bingo operators.

In addition to new games, VGT will also preview the most recent version of PGI's CasinoLink™ Casino Management System. The newest version of this proven program has been specially tailored to meet the needs of both Class II operators and casinos that use a blend of central determinant games and traditional slots at significantly lower costs than traditional Class III solutions. VGT is excited to be the exclusive provider of CasinoLink in many Class II and emerging gaming markets, and will use G2E to offer customers this exciting new product.

By embracing their past and using their portfolio of successful games and pioneering technologies as a platform, WMS is charging its way into the future of gaming. Five years ago, WMS formulated a three-part Technology Plan and now the final phase of innovation will be seen at this year's G2E booth.

Using server-based technology, WMS' Monopoly Big Event provides table game excitement in the form of a slot that allows all eligible players to enter into community bonus rounds together, where for the first time, players can play together and win together.

Top Gun is the first game in WMS' new "Reel Adventure" WAP series. This new series features a state-of-the-art 3-D platform, and introduces the Bose® 3SPACE™ audio system that provides dynamic outcomes in stunning 3-D, where players will feel like they're part of the action.

*"At this year's G2E show, WMS is displaying revolutionary products that clearly show our focus in providing players with new and exciting gaming experiences. Monopoly Big Event, Top Gun, and Super Money Grab are truly unique innovations and are sure to provide slot floors with an edge in gaming entertainment."*

Rob Bone  
 VP of Marketing, WMS Gaming

Super Money Grab provides a first-of-its-kind holographic feel to 5-reel mechanical slots. Layering an LCD screen over the mechanical reels, Transmissive Reel Technology brings multi-dimensional video bonus rounds to the mechanical player. Releasing under the crowd favorite Monopoly brand, it's a new dimension of excitement in slots.

WMS has reached a milestone in their history, and continues to bring an edge to the gaming experience. ♣
