DOUBLE SPIN SLOTTO®

AC Coin & Slot debuts Double Spin Slotto® in both 3-reel and 5-reel versions, introducing a number of innovations in one game. The newest addition to AC Coin's incredible bonus game library, Double Spin Slotto also has an improved sound system and will feature multi-denom capability and a faster credit roll-up.

The Double Spin Slotto bonus game will be available above two different \$2000 base games from IGT: Triple Stars 3-reel 5-line multi-coin and Double Diamond 5-reel 9-line, both with added features that make them great for low denom slots.

The fun bonus game is initiated when three Double Spin Slotto symbols appear on any played payline. With a blare of trumpets, the classic rock song "Spinning Wheel" begins and a game square is chosen at random (awarding a number of bonus balls and/or credit amounts). Then the tumbler in the center of the game-board begins to spin, randomly dropping Slotto® balls into the window for players to see.

With its improved payable, new Slotto bonus game and multi-denom capability, Double Spin Slotto will put a brand new spin on slot floor success!

TABBY CASH™ E-MOTION

Tabby Cash™ is the cat's meow! Atronic's latest game will have your players purring with pleasure. Featuring an entertaining feline theme and exciting free games, Tabby Cash will delight your players, and is purr-fect for low denomination play!

All wins are paid left to right. Catnip symbol on reel 1 and Male Cat or Female Cat anywhere award scatter wins.

Three Nine Lives symbols anywhere trigger the Nine Lives Bonus. The player wins 9 free games with Atronic's unique "spin as long as you win" feature. Nine Cats are displayed on the bottom of the screen representing each of the nine lives. The "spin as long as you win" free games begin, featuring unique payloading where all symbols pay as scatters from left to right. As long as each spin awards a win, the player continues to play the bonus. For each non-winning spin, one of the Cats will be used to "save" the player and continue the bonus. The free games can be re-triggered.

GENIE'S JACKPOT

Close your eyes and make a wish. The jackpot genie is going to grant you three of your wildest dreams. Players will experience the thrills of mystical far away lands as they listen to exotic music playing Cadillac Jack's newest 5 reel, 25 line game, Genie's Jackpot.

Players are granted extra wishes by looking into the Crystal Ball during the main screen scatter pay bonus. When 3 or more Crystal Ball symbols hit in any scatter formation, each ball reveals a

number, that when added together are then multiplied by the player's total bet. The biggest wish is granted when 3 or more Genie symbols appear and trigger the Genie Jackpot Bonus. The beautiful genie emerges from her colorful bottle and offers the player her dazzling gemstones to choose from. Once a colored jewel is chosen, more jewels fill the bonus screen and all gems of the same color flip to reveal exciting and rewarding credits.

Genie's Jackpot is available in both Class II and III versions, with progressive options. So go ahead, close your eyes and make a wish - it just might come true.

POWERMUTUAL™

PowerMutual™ is one of Video King's® latest new games. This fast-paced bingo game is available on the company's high-tech, fixed-base player devices, called PowerTouch™

The key element to each game is that the prize payout is determined by awarding a percentage of the cumulative cards that have been purchased by the players, rather than traditional bingo's predetermined prize amounts.

PowerMutual utilizes the e-BOS credit management system to sell the electronic cards and determine the prize payout for each game. Players purchase credits from an account-based system, which allows them to determine on a game-by-game basis how many bingo cards they wish to purchase from their pre-purchased credit account.

As players buy cards, the prize payout instantly updates based on the total cumulative purchases and predefined payout percentages. The players are notified that each game is closing, and the game is then played like any normal bingo game, using either a standard ball draw or random number generator. When the game concludes, the prize is credited to the winning player's account.

Operators love the additional profits generated by playing outside of normal session hours, and the low-staffing requirements to play this automated and fast-paced game. ♣
